Sides Made Earnest Effort

To Gain Points

In the Struggle with Miner's Situation.

The Mine Workers Endeavored to Bring Out More Men on Strike

And the Operators Made Most Diligent Efforts to Hold the Men Who were Loyal to Them.

Wilkesbarre, Pa., June 4.—The mine workers tried hard to bring out additional engineers, firemen and pumpmen, and the companies were equally in earnest in their efforts to hold the employees that have been loyal to them. The union succeeded in getting out quite a number of men, and the labor leaders now assert that they are satisfied. One or two collieries were compelled to shut down their pumps because of a lack of men, but in all other cases the operators were able to fill the vacancies by drawing on their reserve forces of office and other employees. The mine owners claim that thus far they have employed a very few nonunion men, and have plenty of workers to draw on. The entire coal belt remains comparatively quiet, although disturbances of a minor nature are becoming more frequent. These affairs are in the nature of demonstrations, ranging in numbers from about a dozen persons up to about 100.

President Mitchell's Statement.
Wilkesbarre, Pa., June 4.—President Mitchell gave out the following statement: "Detailed reports from all quarters of the anthracite field indicate that the number of engineers, firemen and pumpmen who ceased work Monday was considerably increased Tuesday, and the probabilities are that it will be further augmented today. There have been no violations of law on the part of the strikers, and our predictions, made last week, that the mine workers would be law-abiding, have been more than verified. The coal strike is remarkable in many respects. Were it not for the fact that the companies have a veritable army of private guards and coal and iron police employed, there would be no exterior evidence that a great industrial contest was being waged."

Quit Work.
Scranton, Pa., June 4.—A portion of the engineers, firemen and pumpmen who remained at work at collieries of the Lackawanna Valley company quit work today, and the company is reported to be handicapped for men. It is stated that not over 100 of the old workmen are on duty and that there is considerable effort necessary on the part of the company to get enough horses and other help to work in the fire rooms and at the pumps and engines.

BRIDGE BURNED

At the Butler Coal Mine Last Night.

Charged That the Blaze Was of Incendiary Origin—Officers Patrolling Workings.

Wilkesbarre, June 4.—The bridge at the Butler mine in Pittsburgh was burned last night. It is believed it was an incendiary fire. Armed coal and iron police are patrolling all the mine workings today. Boys set fire to the Stanton barrier and battered down another section but were driven away by police. Pickets at a number of places in this vicinity, stopped pumpmen and steam men this morning and endeavored by peaceable means to induce them to turn back to their homes and many of them did so.

Drowned While Fishing.
Allanico, O., June 4.—Abram Northland, 60, who for many years was a railway conductor, fell into Mahoning river while fishing and drowned before assistance could reach him.

Martinielli's Successor.
Rome, June 4.—Mgr. Falconio, the papal delegate in Canada, has been definitely selected to succeed Cardinal Martinielli as papal delegate in the United States.

UNION

Meeting of Allen County Bible Society

Was Highly Instructive as Well as Interesting.

Extreme Hardships Which Have Been Endured by the Agents of the Bible Society.

The union meeting in the interest of the American Bible Society at Grace M. E. church Sabbath evening, June 1st, was interesting and instructive. Rev. W. F. Hagerman conducted the opening service. The choir sang "How Firm a Foundation Ye Saints of the Lord"; a portion of the 119th Psalm was read and prayer offered by Rev. I. N. Thomas, of Main street Presbyterian church. "Stand by the Bible" was then sung by the choir. Rev. P. H. Land, pastor of German Reformed church and president of the Allen county Bible Society, then took charge of the service and addressed the audience, (which was good in view of the weather) on "The Bible in the World's Recent Growth."

He referred to his early recollection of his father's labors as agent of the British and Foreign Bible Society in Germany and of the collectors who frequently called at his father's and related their persecutions and imprisonments endured in their work of Bible distribution among Bohemians and Poles, that Christian congregations whose delight was in the law of the Lord were in existence to day as a result of their labors.

In Russia the Czar has removed former restrictions to the circulation of the scriptures in the Empire and they are now being more widely distributed in that vast domain, which will result in its greater enlightenment and in a more just and equitable government. In the south of France, he said the labors of Bible collectors had resulted in the premature of religious societies fully devoted to the Bible distribution work and that 1,000 former religious teachers, who rejected the Bible and opposed its circulation among the people, had, through a study of the Bible, renounced their former views and were now advocating the "Truth as it is in Jesus." and the distribution of the open Bible in all lands and to all people. The work of circulation of the scripture in Spain was being successfully prosecuted. In China and the Philippines, the far east, the demand for Bibles was greater than the supply. He said God was in it all.

Rev. I. N. Thomas spoke briefly of the inestimable value of the scriptures, its effect on churches in uniting them in the preaching of the essential truths of the gospel, and giving less attention to differences of belief; how the Bible had aided him as pastor in supplying the needy and destitute with the word of life, and earnestly urged the people to give the Bible Society a hearty recognition, co-operation and support. The choir sang "My Mother's Bible"; Prof. C. C. Miller then spoke of the Bible in successful men's lives. Lincoln, Gladstone and others, and the superior rank of the Bible in the world's literature. He referred to the important work of the American Bible Society in supplying the foreigners who come to our shores with a copy of the scriptures containing on each page side by side one column in English and one column in their own language thus they can learn more readily the language of their adopted country and learn of Him who said "Learn of Me for I am meek and lowly in heart and ye shall find rest unto your souls."

Mr. Loyd, who on the program, was absent, Mr. Sprague was present but being unknown to the committee and a stranger to most of the audience, his presence was not known to them until the audience was dismissed, which was much regretted. The meeting was a profitable one and may the spirit of truth prompt us all to more efficient service in this work.

Grave Naval Maneuvers.
Washington, June 4.—Secretary Moody laid before the president and his cabinet plans for the grandest set of naval maneuvers ever undertaken by the United States government. They are to be held next winter and are expected to prove of the greatest value in maintaining the steady development which has characterized the United States navy since the beginning of the Spanish war. The central project is the assembling of three great squadrons or fleets, the North Atlantic, the South Atlantic and the European squadrons, at or near Cuba island, on the coast of Porto Rico, about Dec. 15 next. The fleets will work out two or three problems.

THREE

Had Nerve Enough to Vote

Against Party

On the Passage of the Measure

Which Administration Has Been Pushing Through the Senate.

The Notorious Philippine Bill Has Passed Upper House. Nicaragua Canal Measure is Now Up.

Washington, June 4.—The senate passed the Lodge Philippine government bill by a vote of 43 to 39. Three Republicans, Messrs. Hoar (Mass.), Mason (Ill.) and Wellington (Md.), voted against the measure, and one Democrat, McLaurin (S. C.), voted for it. All amendments offered by the minority were rejected. The debate on the measure has been in progress seven weeks and two days. After the passage of the Philippine bill, the Nicaragua bill was made the unfinished business.

The Philippine government bill as passed by the senate approves the action of the president in creating Philippine commission and the offices of civil governor and vice governor of the islands, and authorizes the governor and vice governor to exercise the powers of government as directed by executive order. Future appointments of the governor or vice governor shall be made by the president with the advice and consent of the senate. The "bill of rights" of the United States constitution are applied to the Philippine islands with the exception of the right to bear arms and the right to a trial by jury. The supreme court and other courts of the islands shall exercise jurisdiction as heretofore provided by the Philippine commission and the justices of the supreme court shall be appointed by the president and the senate; the others by the civil government and the commission.

The action of the president of the United States in levying and collecting taxes is approved. All the inhabitants of the Philippine islands are deemed to be citizens of the Philippine islands and entitled to the protection of the United States. When the insurrection in the islands shall have been subdued a careful census of the islands shall be taken, and after such census the governor of the islands shall make a full report to the president and make recommendations as to future government.

Meantime the Philippine commission is authorized to establish civil governments far and as fast as the communities are capable and fit for the same, the Philippine commission being authorized to determine the qualifications of the electors. The president is authorized to regulate the commercial intercourse with the archipelago in the interest of the general welfare. The government of the Philippines is authorized to provide for the needs of commerce by improving harbors and navigable waters, providing warehouses, lighthouses, signal stations, etc. No corporation shall be authorized to engage in agriculture unless provision shall have been made therefor. The government of the Philippine islands is authorized to acquire and convey title to real and personal property and to acquire real estate for public uses by the right of eminent domain. The Philippine commission is authorized to acquire the Friar lands and is empowered to issue bonds to pay for them. These lands once acquired, shall be a part of the domain of the United States and may be disposed of as such. Upon the supreme court of the United States is conferred the right to review the decisions of the supreme court of the Philippines.

The government of the Philippines is authorized to grant franchises and concessions, including the right of eminent domain, for the construction of works of public utility, provided that no private property shall be taken without just compensation; that no franchise shall be granted to any corporation that shall not be subject to review by congress; and that all lands granted shall revert, at the expiration of the concession, to the governments by which they were made.

A mint is to be established in Manila and coins authorized may be coined at the mint, the coinage laws of the United States being extended to the islands. The Philippine government is authorized to coin a silver dollar, containing 416 grains of standard

silver, to be a coin of the Philippine islands, the denomination of the coin to be expressed in English, Filipino and Chinese characters. Silver brought to the Manila mint shall be coined for the benefit of the depositors, the mint charge being one cent for each dollar coined. The same coin may be made at the mint in San Francisco upon the request of the Philippine government with the approval of the secretary of the treasury, provided that such deposits at the San Francisco mint shall be confined to silver produced in the United States.

Anti-Anarchy Bill.
Washington, June 4.—The house began consideration of the anti-anarchy bill. The house committee reported a substitute for the senate measure. Mr. Ray (N. Y.), chairman of the judiciary committee, who was in charge of the bill, argued that the senate bill was unconstitutional. Mr. Leachman (Tex.) supported the feature of the bill to exclude anarchists, but opposed that making it a particular offense to kill the president or any one in the line of the presidential succession.

LIGHTNING

Struck Powder Kegs and Explosion Follows.

Wilkesbarre, Pa., June 4.—Fifteen hundred kegs of powder blew up at the Oliver powder works, on the mountain south of here, during a thunderstorm. No one was injured. Because of the coal miners' strike and the consequent lack of demand for powder the works have been closed, and no one was about the place except Superintendent William McDonald. The powder was stored in two small buildings which were situated close to a group of other small structures. The superintendent said he was standing near the buildings when a blinding bolt of lightning struck one of the buildings, and both of them were wiped out of existence. The loss is estimated at \$7,000.

TORTURED

Prisoner in a Most Inhuman Manner.

Testimony Given Before the U. S. Senate Yesterday

Places American Officers in a Most Unsavory Light. Charges of Barbarity Only Expected Among Savages.

Washington, June 4.—Private Wiers charges against Lieut. Arnold, of the Fourth cavalry, alleging torture of Filipinos, which were read in the senate yesterday include charges that Arnold used the "water cure." While taking the "water cure" one man was beaten unmercifully. A rope was then thrown over a beam, he was strung up by thumbs, his feet jerked from under him and he was beaten some more. The men under Arnold, Wiers says, invented a new method of torture. "A strip of flesh is cut just above the ankle of the prisoner; it is then attached to a stick, and the stick is coiled with a strip of flesh." Another charge is that Arnold told his men to take an old man to a stream and keep him under water until he was unconscious because he would not give up information he was supposed to possess.

Woman Succumbed.
Kansas City, June 4.—Mrs. James McMillan died from injuries inflicted two months ago by her husband, who, while drunk, struck her with a chair. Mrs. McMillan was unconscious for three weeks. When she recovered consciousness she was unable to speak, her vocal chords having become paralyzed. McMillan will be held for murder.

UPRISING

Among the Yagai Indians Becoming General.

El Paso, Tex., June 4.—A private letter received here from a reliable source at Hermosillo, Mex., states that a general uprising of the Yaqui Indians in the central and southern portions of that state has taken place and a reign of terror exists even at the capital, for it is feared that the Indians will attack the town. Refugees from the ranches, with their wives and children, are pouring into Hermosillo, seeking protection. A conscript law has recently been passed, and as fast as able-bodied men arrive at the capital they are conscripted to serve in the army. Indians are rising in large numbers and concentrating among the hills.

MOBS

Gave the Chicago Police

Plenty of Work

Trying to Keep the Riots Quelled.

A Large Number of People Were Injured in the Melee

And Fifty Arrests were Made for Attempts Made to Check Progress of the Meat Wagons.

Chicago, June 4.—Chicago's police were given a strenuous life by the striking packing house teamsters. The bluecoats were kept busy dispersing trouble-makers, who congregated along the streets and in every conceivable manner placed obstacles in the way of the meat dealers who endeavored to move their wagons with nonunion drivers. In spite of the striking teamsters and their friends, 33 wagon loads of meat were delivered from the stockyards to downtown stations. Before the task was accomplished, however, a score of policemen and rioters had been injured and fully 50 persons had been placed under arrest. Several of the injured were in such a serious condition that they were taken to hospitals. Two of the injured may die.

When the procession of wagons left the packing house district they were guarded by a heavy detail of police. As soon as the wagons emerged at the entrance of the yards fully 500 enraged strike sympathizers made a rush to overturn the conveyances. The policemen drew clubs, and after a hard struggle succeeded in scattering the mob. A fresh start was made, but before the wagons reached the downtown district the mob, augmented by hundreds of sympathizers, made another attack. In the fight that followed revolvers were drawn. No person was shot, the police instead using their clubs indiscriminately, and a dozen or more people were hurt before the march could be resumed. When the central portion of the city was reached clashes between the police and the crowd became numerous. Streetcar traffic was an impossibility, and it was necessary for several squads of police to charge the crowds with batons before the wagons had reached various downtown houses.

To add to the burdens of the police department 1,300 drivers and their helpers employed by the State street general retail merchandise department stores went on strike. An attempt was made to deliver department stores goods in the downtown district with nonunion drivers under police protection, but so much disorder developed that the attempt proved futile. Before the project was abandoned several rioters were hurt and many arrests had been made.

An attack made on William Kiser, a nonunion teamster employed by Irwin Brothers, at Harrison street and Michigan avenue, resulted in a small riot, in which several shots were fired and one man was severely wounded by a stray bullet. Kiser claims he fired the shot in self-defense. The man injured is Charles Roda, 40. He received a bullet in right leg above the knee, and amputation may be necessary.

KENTON

May Issue Bonds to Build Chamgion Iron Works.

A mass meeting was held at Kenton Monday evening to discuss the proposition of bonding the city for \$50,000 for the purpose of rebuilding the Chamgion Iron Works. The question is to be voted on at a special election and there is a confident feeling that it will carry. Dr. Carter has refused to consider any outside proposition until Kenton is given this opportunity. If the bond issue should be defeated the big iron works will go to some other city.

Germany and Cuba.
Berlin, June 4.—The German government has taken no steps to recognize the Cuban republic. The official explanation of this fact is that as yet the government has not been notified of a change in the political status of the island, the affairs of which, in theory, are wholly within the military jurisdiction of the United States.

KING EDWARD

Telegraphed Congratulations to Kitchener.

London, June 4.—King Edward has cabled his congratulations on the conclusion of peace to Lord Kitchener and Lord Milner, the British high commissioner in South Africa. The text of the royal dispatch to Lord Milner is as follows: "I am overjoyed at the news of the surrender of the Boers, and I warmly congratulate you on the able manner in which you have conducted the negotiations." The following is the text of King Edward's dispatch to Lord Kitchener: "I send you my most hearty congratulations on the termination of hostilities. I also heartily congratulate my brave troops under your command for having brought this long and difficult campaign to so glorious and successful a conclusion."

Dayton Woman's Bequests.
Dayton, O., June 4.—The will of the late Mary Baker bequeaths her estate, valued at \$500,000, mostly to charitable institutions, she having no direct heirs. Fifteen hundred is given to foreign missions; \$10,000 for the education of freedmen in the south; \$50,000 for the deaconess work, and the Baker homestead, valued at \$100,000, is given to the Y. M. C. A. The Y. W. C. A. also comes in for a large share of the fortune.

Barracks Ablaze.
Peking, June 4.—Fires occurred at the French barracks here and at the quarters of the Austrian troops. Although the fires were large, the resulting damages were small. The fires are believed to have been of incendiary origin. When the buildings burned there was much excitement and rejoicing among the crowds of Chinese who had congregated outside the legation quarters to enjoy the sight of the flames.

New Consul to Martinique.
Washington, June 4.—President Roosevelt has found a competent man willing to undergo the dangers of another eruption of Mont Pelée, in the island of Martinique. He is John F. Jewell of Gaucha, Ill., who appeared before the board of officers at the state department and was examined to ascertain his fitness to fill the vacancy caused by the death of Consul Prentiss at St. Pierre. His nomination will be sent to the senate. The department is anxious that he shall reach Fort de France as quickly as possible, in order that he may relieve Consul Ayme, whose post is at Guadeloupe, and who has been compelled to attend not only to the consular business of his own island, but to that of Martinique as well.

Sensational Testimony.
Lansing, Mich., June 4.—William L. White, ex-quartermaster general of the Michigan national guard, in his testimony before the supreme court in the disbarment proceedings against Attorney E. S. Roos of Kalamazoo, told for the first time the full story of the state military clothing frauds, and declared that Colonel Eli R. Sutton of Detroit, who was acquitted of complicity in them by a jury, was a party to the fraud and received his share of the profits. His testimony created a sensation in view of Sutton's indictment and acquittal after a long and bitterly fought trial.

Mexican-Yaqui Battle.
Tucson, Ariz., June 4.—Advises from Torres states that in the fighting between the Mexican soldiers under Governor Izabel and the Yaquis on the Sonora river, 18 Yaquis and three Mexicans were killed. There were 400 Indians. General Torres has taken the field with the Twentieth regiment and a detachment of cavalry. Colonel Kasterhitz is marching from Magdalena with his forces down the San Miguel river to the Sonora, where he will form a junction with Governor Izabel.

Boys Struck.
Guthrie, C. T., June 4.—During an electric storm which passed over Beaver county, two small sons of Thomas Smith and another boy whose name is not given were struck by lightning and killed.

Congressman Skiles Renominated.
Elyria, O., June 4.—Congressman W. W. Skiles of Shelby was renominated for congress at the Fourteenth district Republican convention.

MUCH IN LITTLE.
Telegraphic Wails Bunched For the Reader's Convenience.
George E. Chamberlain (Dem.) was elected governor of Oregon by a plurality of about 1,000.

National Metal Trades association changed its headquarters from New York to Cincinnati.

Edward Ward, farmer, killed by falling timber during the progress of a storm near Louisville, Wis.

By the overturning of a raft in the Monongahela river above Fayette City, Pa., the 11-year-old son of Theodore Booth was drowned.

Mrs. George Lemmon of Zanesville, O., arrested at Washington, charged with kidnapping her grandchild, Violet Collaran, 3, of Philadelphia.

HOME

Rule Was the Chief Topic.

Irish Question

Eloquently Discussed by Bourke Cockran

Who Appealed to the American People for Moral Support.

He Entered a Vigorous Protest Against the Coercion Laws and Explains the Situation in Ireland.

Chicago, June 4.—The meeting of the Irish Americans of Chicago at the auditorium to protest against the coercion laws in force in nine counties of Ireland was perhaps the largest demonstration of its kind ever held in this city. Bourke Cockran was the speaker of the evening. Crowds thronged the avenue outside, disappointed at being unable to gain admission. Special importance was attached to Mr. Cockran's pronouncement, as he has only recently returned from London, where he conferred with John Redmond and other leaders of the Irish movement. Judges, clergymen, bankers and men prominent in every department of the city's life, occupied places on the platform. Mr. Cockran said in part:

"The Irish question is often said to be too difficult for the ordinary man to understand, but it is the simplest question conceivable. Ireland is the only country in which the people own neither the land upon which they live, nor the government under which they live. The Irish question arises from the demand of the Irish to control both their people and their land, while the English government denies the right and endeavors to stifle the demand. It is a dual question, alien ownership of the land and alien ownership of the government; these are the Irish grievances. The difference is, in every other country the settlers have settled upon the soil of which they have control; they have intermarried with the people and from that intermarriage new governments were evolved; but in Ireland the owners of the soil never lived on it and never saw it, but retain ownership by a sort of confiscation. This alone is enough to destroy Irish property. Up to the middle of the Seventeenth century Ireland led the world in the shipping and raising of cattle, horses and other live stock and in woolen manufacture. Up to this period the owners of the soil lived on it, and in good time became more Irish than the Irish themselves, but in William the Third's time the land was given over to England and the English. The original owners were allowed to come back and settle on the lands, but only as tenants. The result was to destroy their occupation of exporting live stock, and in due time the only occupation open for the Irish was agriculture. They pursued and with only slight encouragement, and under many restrictions. 'The Irish have shown their industrial capacity not only at home in woolen manufacture, the raising of cattle and sheep and in the linen industry, but they have shown their industrial capacity in every country in which they have gone, and if this be the case under adverse conditions at home and in foreign lands, how much more then would it be shown in their own land, owned and governed by themselves?'

"It is the divine will that a nation of influence and power shall exercise that influence and power for the welfare of mankind. If the American people, in their might, shall rise up and say the Irish cause is just, Ireland will be restored. As Americans we cannot but believe that providence has intended that the American people shall be the instrument through which justice shall be accomplished, that the principles of right and justice may be acknowledged throughout the whole world."

Live Stock Markets.

East Liberty, June 4.—Cattle light, steady; hogs steady; sheep fair, steady.

Full Blood Elected.
Wewoka, I. T., June 4.—Halautia Micoo, a full blood, was elected chief of the Seminole Indians, defeating John F. Brown, a half blood, who is just completing his fourth term. Brown is one of the most influential chiefs in the territory and his defeat will, it is believed, have a tendency to hasten the dissolution of the Seminole tribal government.

MET

And Nominated a Ticket.

The Democrats

Of Indiana Held Large Convention

And Adopted Platform That Sharply Criticised the Administration.

Most of the Candidates Had No Opposition for the Position for Which They Were Nominated.

Indianapolis, June 4.—The Indiana Democratic convention met here today with a large attendance. The following candidates for office have no opposition: Jerome H. H. of Peru, state treasurer; J. R. Riggs, of Sullivan, state auditor; W. E. Stillwell, of Princeton, attorney general; Adam Heimberger, of New Albany, clerk supreme court; Timothy Howard, of South Bend, judge of supreme court for Fifth judicial district. The only fight that is promised is for the position of secretary of state, for which Albert Schoonover, of Attica, and L. F. Allen, of Frankfort, are candidates. The platform will probably include, among other provisions, a plank condemning the policy of the Republican administration in the Philippines, and another denouncing asset banking. The election of senators by the direct vote of the people will be favored, and the ship subsidy bill will also be declared as opposed to the best interests of the people.

Kitchener Can't Come. London, June 4.—It now appears that Lord Kitchener will not return to London for the king's coronation, and Joseph Chamberlain, the colonial secretary, has said that the government does not propose to have the new South African colonies represented at the coronation of King Edward. Transvaal and Orange River representatives could hardly reach London in time for the function.

President Barrows' Death. Oberlin, O., June 4.—After nine days' illness with pleuro-pneumonia, John Henry Barrows, president of Oberlin college, died Tuesday afternoon. Dr. Barrows was born in Medina, Mich., July 1, 1847. He was graduated from Oberlin college in 1867. His theological training was obtained in Yale, Union and Andover seminaries. He was elected president of Oberlin college in November, 1898.

Patriarch of Methodist Church. Little Rock, June 4.—Dr. Andrew Hunter, one of the patriarchs of the Methodist church in Arkansas, died here in his eighty-ninth year. He was licensed to preach in 1836. In 1866 he was elected a United States senator, but was unable to take the "iron-clad" oath and resigned. His death was superinduced by injuries received in alighting from a streetcar three weeks ago.

TEN YEARS IN BED. R. A. Gray, J. P. Oakville, Ind., writes, "For ten years I was confined to my bed with disease of my kidneys. It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no result until Foley's Kidney Cure was recommended to me. It has been a God send to me." H. F. Vortkamp, corner North and Main streets.

Some Funny Ducks. If you ever go to Hankow, China, don't forget to visit the duck farms. There are a great many of them, and they are really very funny. Hankow is built along the river, and the people live by catching fish and raising ducks. Close to the water are the little stads in which the ducks sleep at night. Early each morning the doors of these sheds are opened, and the ducks go out upon the river and swim about all day. At sunset the owner claps his hands, and the ducks rush from all directions, and there is a most desperate scramble. None of them wishes to be the last duck to go through the door. They have the best of reasons, too, for a Chinaman sits at the door with a long bamboo rod in his hand, and the last duck always gets a sharp crack. It is very funny, too, to see these farmers driving their ducks to market. They never walk, but ride in the oddest sort of boats, and the ducks swim on before. Should one swim to either side he is quickly brought into line again by an unmistakable hint from the bamboo stick which his master always carries.

Tiesn't seem to be a day without Dr. Thomas' Electric Oil in the house. Never can tell what moment an accident is going to happen.

TEAM From Sidney Will Again Play Wapakoneta

"Reds" are in Fine Form for a Good Game.

Auglaize County Leads in Number of Miles of Western Ohio Track.

A Portion of the War Relics Have Arrived and the Cannon Will Be Here Soon. Other Wapakoneta News.

WAPAKONETA, O., June 4.—Manager Fisher of the Wapakoneta Reds, has secured a game with the Sidney Champions, for next Sunday, and promises to show the spectators a game, "as is a game." The Sidney boys have been showing the Washington C. H. team this week how to play ball and are all good players, which Wapakoneta knows from experience. The local team is in good shape now and better equipped to play than four weeks ago, when it was defeated by Sidney. The manager expects to secure dates with Delphos and Napoleon soon.

RIGID INSPECTION.

Company L met at the armory last night and were drilled in squads under corporals. The company was in charge of Lieutenant Franke, Captain Layton being absent. Another meeting will be held Thursday evening to prepare for inspection, Friday, by Col. Henry M. Taylor, assistant adjutant general for the state of Ohio. This will be the actual state inspection preparatory to encampment and will be very rigid. The regiment will go into camp from July 13 to 21, but the place has not yet been decided upon. Clinton Boetcher, Albert Dardie, Wm. H. Bradford, Jr., Charles E. Fisher, and Benjamin Langhorst have recently joined the company.

SHELLS HAVE COME.

Mayor Freyman and the commander of Kyle post, G. A. R., have received a number of shells from the war department, which were applied for some time ago, and these will be mounted in the near future according to plans accompanying. The cannons have not yet been received but are expected during the next week.

CURBING COMPLETED.

The contractor for the Blackhoof street improvement between the bridge and Auglaize street has completed the curbing and yesterday the crushed stone was hauled and graded. It will be rolled and packed in a few days. This was constructed as a sample of crushed stone paving and if it proves satisfactory more of it will be done on other streets in the future.

SIX FROM AUGLAIZE.

Auglaize county will have six delegates at the third district Republican judicial convention to be held at Lima, June 13th. The convention if for the purpose of nominating a candidate to oppose Judge Norris, the Democratic nominee, and delegates will be chosen in a manner indicated by local committees. Other counties in the district as follows: Wyandotte, 5 delegates; Union, 7; Logan, 10; Henry, 5; Hardin, 9; Hancock, 11; DeKalb, 6; Crawford, 6; Van Wert, 9; Allen, 11.

MORE THAN DOUBLE.

According to the recent appraisalment of the belongings of the Western Ohio Railway company, by the auditors of Auglaize, Allen, Mercer, Shelby and Miami counties, the treasury of this county will receive more than double the amount of taxes received by any other county. There are 35 miles of that road in this county, assessed: Main track, \$1,750 per mile; side track, \$1,000 per mile; rolling stock, \$350 per mile; tools and machinery, \$50. The power house at St. Marys is listed for taxation at \$50,000 and the sub-station in this city, \$4,000.

MARRIAGE Of Miss Edna Murray to Mr. Cloyd Shaffer.

At the home of the bride's parents, Mr. and Mrs. J. B. Murray, of Herring, O., at 1 o'clock, June 1, Rev. Barker, of Herring, solemnized the nuptials of Miss Edna Murray to Cloyd Shaffer, of Wapakoneta. The bride was attired in a gown of white tulle trimmed in chiffon. The groom wore the usual black. Gladys Morrison and Freda Mullin acted as flower girls. Mrs. J. E. Mullin played the wedding march.

After congratulations a sumptuous dinner of three courses was served. The guests present were Mr. and Mrs. Webber, Edna Shaffer, and Mrs. Gus Lauber, of Wapakoneta; Mr. and Mrs. Frazier, Mr. and Mrs. Hardesty, Harold Shaffer, and Mr. Jake Davis, of Beaver Dam; Mr. and Mrs. Fisher, Mr. and Mrs. H. E. Morrison, Mr. and Mrs. F. L. Lamberton, Mr. Winegardner, and Mrs. Freet, of Lima; Mr. and Mrs. Bird, Mrs. Floyd Levisness, Miss Hulda Kerr, and Mrs. Barker, of Herring. The presents were numerous and useful.

Big Figures.

100,000,000 bottles of Perry Davis' Painkiller sold in 50 years. Just think: Nearly enough placed and to end to reach around the world. What other remedy can boast such a record of services to humanity in curing stomach and bowel complaints and the many other ailments and accidents constantly occurring even in the most careful homes. There is only one Painkiller, Perry Davis'. Beware of imitations.

DUST SPRAYING.

A Conservative View of It as Compared With the Use of Liquid. "In the great apple growing districts of the west and southwest experiments are being made with dust as compared with liquid spraying. The dust is blown upon the trees by means of an air blast."

In view of this fact The Rural New Yorker publishes the opinions of some practical horticulturists on this practice. The secretary of the Missouri Horticultural society says: "I am slow to say much about 'dust spray' because I do not yet feel sure that it is as efficient as the liquid. In fact, it has not been tested long enough to say exactly how valuable it is. Our entomologists and best informed men on fungous diseases give it as their opinion that the 'dust spray' is not as efficient as the liquid. But it is applied so much more easily and quickly than the liquid that we can dust the orchard twice or three times with the same expense as one application of the liquid. We can get on the ground when it is so wet that we could not haul a load of water. The hand dusters are easily handled, and the work can be done after a rain or mist or while the dew is on early in the morning. We often dust from 4 to 8 a. m. and give the men a half day for the work. Lime (air slaked, fresh) is the base to carry the insecticides and fungicides. I am sure also that lime is good for both these. It is a good insecticide and it is a good fungicide, and this year we shall test it alone on a forty or eighty acre orchard. I have used the dust process, first, in a small way three years ago; second, on forty acres two years ago; last year on over 240 acres. This year we shall use it on over 400 acres. I used one pound of paris green to ten pounds of lime; shall use only half that strength this year, as well as lime alone. I used the dry bordeaux for fungicide, one pound to ten pounds of lime. I shall use this year twenty pounds lime, one pound paris green, one pound bordeaux. We used five hand dusters and one duster to go in a spring wagon. We dusted three times and feel sure that it paid us to do so. We were compelled to use something besides liquid, because we had no water handy, and we shall continue to do so in our young orchards. While I cannot say that the dust is as valuable as the liquid, yet I think, from our experience, that we can prevent the insects and fungous diseases if we will follow it up systematically, especially on our young orchards, where these pests have not yet secured a hold. In an old orchard, badly affected with these troubles, I do not think we could check their ravages so quickly or thoroughly."

Don't Marry for Money. The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infalible for Jaundice, Biliousness, Malaria, Fever, and Ague, and all Liver and Stomach troubles. Gentle but effective. Only 25 cents at H. F. Vortkamp's drug store, corner North and Main streets.

MCBETH'S PARK.

The vaudeville bill at McBeth's park seems to be an unusually good one this week. Dolph and Susie Levino, in their amusing skit entitled the "Miggles Family," draw rounds of applause. Eberly and Egbert, the song illustrators do a neat turn. As a character change artist, Mollie Klingbeck is a success. Carson and Willard, in their German comedy act, keep the audience in a continual uproar of laughter. The moving pictures have consented to conduct themselves to a better advantage. Dancing, music and boating help to carry out the programme.

Profit by a citizen's experience. Mr. Joe Wise, of 735 west North street, machinist at the C. H. & D. R. shops, says: "There was a heavy dull aching through my loins and I felt sore and lame all over. My general health was run down and I lost weight until I got down to 135 pounds. I saw Doan's Kidney Pills advertised, and so highly recommended that I procured a box at Melville's drug store, and began treatment. I rapidly grew better, the aches and pains left me, the action of the kidneys became normal and healthy, and I was soon enjoying nights of good sound refreshing sleep. I felt like a man and went about my work feeling as strong and well as ever in my life. I regained my normal weight of 180 pounds in a short time. No words can strongly express my appreciation of Doan's Kidney Pills." For sale by all dealers. Price 50¢ a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. A Cat and Dog Tale. Cats and dogs are supposed to hate each other, especially the cats. No doubt pussy has good reason to go in fear of the dog. Still there are many cats and dogs that are not only civil to one another, but positively friendly. There was one rabby which was so fond of the dog of the family that she could not bear to be separated from it. She would mew in heartrending fashion to get into the room where was the dog, and if he need were paid to her cries she scratched and scratched at the door, trying to scrape admittance. When this failed, it is said that she then raised herself up on her hind legs, turned the handle of the door and walked into the room. Her owners were so enchanted with her skill, as well they might be, that they used to get pussy to repeat the feat.

Dumb Orator.
An amusing game is dumb oratory, which must always be played by two persons, though the spectators may be as many as the space of the room will permit. The dumb orator is quite hidden—that is, all but his hands and arms. The talking orator takes up his position just in front, with his hands and arms behind his back, while the dumb orator and arms of the dumb orator are thrust forward, just as if they belong to the speaker. It is best to select a very "eloquent" piece, which requires many gestures. These the dumb orator makes according to the talking ideas, quite regardless of the talking orator, who goes serenely on his way. The effect is very funny, and the soberer the piece the funnier it all looks. It is better that the dumb orator should not have any idea what piece the talking orator will recite.

Will Hold Memorial Services

At Opera House

Sunday, June 22, Unless Date is Changed.

Commencement Exercises in A Grammar Grades Will be Next Week.

Two Bicyclists Collided While Going Along Main Street. Both Riders were Hurt, and Wheels Wrecked.

Arrangements are being completed by Solar lodge of Odd Fellows for their annual memorial services which will be held at the opera house, Sunday, June 22nd. It has not yet been definitely decided who will deliver the memorial address. The program in observance of the occasion will be rendered in the morning and the decoration of the graves of departed members will occur in the afternoon.

Commencement Exercises.

The annual graduation of members of the A grammar departments of the south side schools will occur Friday, June 13th. The exercises will probably be held in Grace church and will be under the supervision of the principals of the grammar schools and Prof. C. C. Miller. This year's class is an uncommonly large one.

Bicycle Accident.

William Turner while riding a bicycle down south Main street, yesterday evening, collided with another bicyclist. The contact was so strong that both riders were thrown from their wheels. Both were badly cut and bruised. Mr. Turner's bicycle was completely demolished.

Has a Train.

Local friends of Charles Wilkin, formerly resident here, but lately living in Kenton, will be pleased to learn he has been promoted to the position of passenger conductor upon the T. & O. C.

Fishermen Return.

Oscar Dixon, William Cumrine and Albert Medling constituting a fishing party at the Lewisport reservoir the past several days, have returned, being well rewarded for their efforts.

New Pastor.

Rev. Harber has been installed as the regular minister of the German Baptist church in south Lima. He will assume the duties of his pastorate next Sunday. Rev. Byron, who had temporary charge of the church has returned to his duties north of the city. The new congregation here has quite a large membership, with prospects bright for the future. One of the important tasks the new pastor will undertake is that of having the national conference of the German Baptist meet in Lima next year. The association has decided to meet in northwestern Ohio next summer, but have not agreed upon the place of convening. J. E. Vore, of south Main street, who attended the conference at Harrisburg, a few weeks ago, is interested in having the next meeting held here. He says the convention is of greater proportions than is generally supposed. Hundreds of delegates from all over the United States attend the conference which remains in session about two weeks. Such a gathering entails the expenditure of thousands of dollars. Should Lima secure the conference it would among other considerations be a great financial benefit to the city. Mr. Vore, in connection with the pastor of the local church and its congregation, are quietly, but effectively working to induce the convention to come here. Bellefontaine is making a strenuous effort to secure the meeting. Within the next several weeks a committee appointed by the conference will visit Bellefontaine to investigate that city's facilities for entertaining the gathering. Local members of the association are resolved to have matters so arranged at that time as to have the advantage Lima has to offer. Rev. Harber, Mr. Vore and others will con-

fer in the mean time with the Lima board of trade, other churches and influential citizens, so as to be in a position to present this city's claims in the best possible light. They believe they can offer the committee such inducements as to have them decided to hold the next national conference here next year.

Foot Crushed.

R. G. Platt, of west Kibby street, while employed at the refinery yesterday afternoon accidentally mashed his right foot. He was wielding a heavy sledge hammer, when he missed the object he was striking. The full force of the blow fell upon his left foot, crushing it painfully. As a result he will be detained from work for quite awhile.

Will Return Soon.

William Morris and family, who have been sojourning in California the past year for the benefit of his health, will return in a few days. He has been greatly benefited by his stay in the west.

Going to Larwell.

A. C. Hall, of west Kibby street, who has been in declining health the past several weeks will leave shortly for Larwell, Ind., where he will take a course of treatment at the sanitarium.

Gone to Shiloh.

Reuben White, of south Central avenue, left this morning for Cincinnati, where he will spend a short time, then proceed to the national park at the Shiloh battle field, where he will attend the dedication of the monument in memory of the Ohio soldiers. Mr. White was a member of one of the regiments that participated in the memorable battle of Shiloh. Before returning he will visit at Corinth, Pittsburg Landing, Paducah and Louisville. He expects to be absent about two weeks.

Dinner Party.

At her home on west Kibby street, yesterday, Mrs. T. M. Henton entertained a number of friends at a well appointed dinner party.

Careless Cyclist.

An accident caused by the reckless riding of a young bicyclist occurred at the corner of Main and Kibby streets. A young lady was riding a bicycle down west Kibby street, when a boy upon another wheel dashed into her wheel with great force. Both were thrown to the pavement, receiving quite serious injuries. The boy was the more seriously injured, a painful contusion being inflicted upon his head by falling upon the paved street.

Missionary Meeting.

The Home Missionary Society of Grace M. E. church met with Mrs. W. P. Cox, at her home on south Elizabeth street this afternoon. After the transaction of business a season of sociability was enjoyed.

Tea Party.

Miss Virginia Mack, daughter of Mr. and Mrs. J. C. Mack, of south Central avenue, assisted by Miss Anna Kendrick, entertained a number of friends at five o'clock tea at the home of Miss Mack, Saturday evening.

About Your Friends.

Frank Cramer, of Wooster, is the guest of his brother, Daniel Cramer, of south Main street.

W. R. Miller returned last night from visiting relatives at Dayton.

Mr. and Mrs. F. C. Curmish are home from Kenton, where they were the guests of Mrs. Curmish's parents. Mr. and Mrs. J. J. Magley.

Charles Jefferies and family, of south Main street, have removed to St. Marys, where he has accepted a position.

Miss Mollie Fenwick, after a year's absence at Hillsborough, returned yesterday to this city, where she will make her future home.

Wesley Guberth is back from a brief stay at Spencerville.

Mr. and Mrs. O. J. Overfield, of St. Johns avenue, are the proud parents of a bouncing baby boy.

Jasper De Long, of Sandusky, is visiting his daughter, Mrs. T. M. Henton, of west Kibby street.

A Great Fuel Saver.

Wash day always increases the fuel bill if you boil your clothes. Don't do it. There's a better way—the "Easy Task" way. "Easy Task" is a pure white laundry soap which will make your clothes bright and clean without boiling. It costs no more than the common yellow soap and will last much longer. It's 5 cents a bar at all grocers.

There will be a free social Thursday evening, June 5th, at Donze hall for all Foresters and their families of Court Lima No. 560. By order of committee. 9-2.

OUR SLASHING SALE

On Dressing Saques.

There isn't a finer line of Dressing Saques in Lima than we carry. Our stock is entirely too large for our room and we are going to give the biggest reduction sale ever given in this city. The garments are all new and every style and quality in the lot. Here are the former prices, also the actual cut price.

\$3 and \$3.25 Saques go at \$1.75.
\$1.75, \$2.00 and \$2.50 Saques go at \$1.25
\$1.00, \$1.25 and \$1.50 Saques go at 75c.

This is a strictly bonafide sale and the greatest chance you ever had or ever will have to get your supply of these garments. Nothing nicer these hot days and evenings than a pretty cool dressing Saque. Sale began at 9 o'clock yesterday and if the ladies of Lima appreciate a real bargain the garments will soon be closed out. Who'll be first?

This is by no means the first time Senator Morgan, of Alabama, has come to the aid of the Republican

senators in their distress. It is not forgotten that he actively sustained the absurd pretensions of a former Republican administration in the Bering sea controversy, and that he was sent as an arbitrator to Paris in consequence. He now says that the administration is bringing blessings and benefits to the Philippines. But the distinguished statesman, in his zeal for Republican policy, overlooks the sound doctrine of morals, as well as law, that benefits are not to be thrust upon those who reject them.

The management of the Democratic congressional campaign this fall will be in the hands of two very strong committees, to which able men have been appointed, and among them are several Cleveland and gold Democrats, who have not been active in party work since the division on the silver question occurred in 1893. Benjamin T. Cable, of Illinois, one of the most successful political managers in the country, will head the executive committee, and Lewis Nixon, of New York, the finance committee. Joseph Quincy of Boston, will serve on the

executive committee, and among the members of the finance committee will be Isador Strauss, of New York, Senator Clark of Montana and Turner of Washington. These three men are very wealthy, and as Mr. Cable has the confidence of the leading financial and commercial men in the east and west, the Democrats will begin the congressional campaign with ample funds to make an aggressive campaign in every state. Conditions are now favorable to Democratic success, and as prominent Cleveland Democrats are taking an active interest in the campaign, the outlook is regarded by the leaders of the party as exceedingly encouraging.

Two Funerals From St. Rose This Morning

Which Saw the Gathering of Many Friends to Pay Final Tribute to the Dead.

The last sad rites over the remains of the late Patrick O'Brien were held at St. Rose church this morning at 9:30 o'clock. Rev. Leo Boehmer, a missionary priest, was the celebrant of the Requiem High Mass. At the conclusion of the services Rev. A. E. Manning preached the funeral sermon paying a worthy tribute to the memory of the deceased.

Four sons, Luke, Thomas, Henry and Martin O'Brien acted as pallbearers for their deceased father. The following relatives from out of the city were present at the obsequies: Luke O'Brien and family, of Huntington; Mr. and Mrs. Kelly, of Mendon, O.; W. L. O'Brien, of Toledo; Mr. Boyle, of Huntington, Ind., and Michael Welsh, of Cincinnati.

The body was laid to rest in Gethsemani cemetery beside the remains of his wife who preceded him fourteen years ago.

The casket was fairly hidden beneath a wealth of beautiful flowers, woven into designs, the final tributes of friends who loved and honored the deceased in life.

JOHN CARNEY.

The funeral services over the remains of John Carney were held at St. Rose church this morning at 10:45 o'clock. Rev. James Fogarty, of Marion, Ohio, officiated. Relatives present at the funeral from abroad were John C. Carney and family, of Springfield; Mrs. Mary Sullivan and two daughters, of Chicago, and passenger conductor Wm. Castello of the D. S. of Jackson, Ohio. Rev. James Fogarty accompanied the funeral cortege to Gethsemani cemetery, where the last sad rites over the dead were completed at the grave.

COLUMBUS GROVE.

Funeral of Mrs. Carr Held Yesterday.

Eleven Coaches Needed to Convey the Putnam County Knights of Pythias to Springfield.

COLUMBUS GROVE, O., June 4.—Wilbur O. Day, for the past several years teacher of the High school at Pandora, east of here, has been engaged as superintendent of the Sugar Creek township public schools. The vacancy caused by his resignation in the Pandora schools has not as yet been filled.

Work has been commenced on the excavations for the Stirlen block. The work of laying the foundation will be pushed as rapidly as possible. A large force of workmen are employed.

The funeral of Mrs. Carr, wife of D. A. Carr, was held yesterday afternoon from the United Brethren church and was largely attended. The deceased was well known, and owing to this fact a very large number of people paid their last respects to this good woman. Rev. Mr. Davis was the officiating minister. The remains were laid to rest in Turner's cemetery.

Rev. S. D. Conger and Mr. and Mrs. James Belford are among those from the First Presbyterian church who are attending the state Sunday school convention at Findlay.

The regular meeting of the Ladies' Aid Society of the United Brethren church will be held on Friday afternoon in the study at the church.

W. A. Frayer, of Kalida, has taken charge of the telephone exchange as general operator. He and his wife now occupy the rooms of the telephone company, recently vacated by George Turner, former operator. Mr. Turner will remain with the Putnam Telephone company in the capacity of linemen. Miss Elizabeth Trout has been retained as day operator and collector for the company.

Eleven coaches were necessary to convey the Putnam county Knights of Pythias to their annual reunion and picnic at Springfield, Ohio, and for a visit to the home. It was 7:30 when the big excursion train reached Columbus Grove. Here was put aboard the remainder of the cows, which go to Springfield to aid in furnishing the little orphans confined in the Knights of Pythias home that substantial article of food—milk. The three cows had been purchased and were allowed to graze near the depot until the train pulled in. Then the crates were unloaded, the cows brought up, haltered and put up. The crates were loaded in the baggage car and the peaceful animals went to join the other cows on the trip for their mission of good. The excursionists boarded the train after the cows were loaded. This was next to the last stop and the train from West Cairo will pull through without a stop. It is expected that the grand officers of the K. of P. lodge of Ohio will be present at the home at Springfield to respond to the presentation speech. The unique gifts has made Putnam county famous and this piece of charitable work is acknowledged to be the biggest ever attempted in the history of the fraternal orders.

CAPTURED

Broncho Will be on Exhibition Tonight.

Prof. Beery has never yet disappointed his audience and he kept his promise when he said there would be plenty of amusement last night. He had some of the best subjects for training that have yet appeared beneath his tent, and the supply in Allen county does not seem to be easily exhausted. He has some good horses for exhibition tonight, and one in particular he has frequently called attention to. There is a broncho, owned by a farmer, that no one has been able to capture, and Prof. Beery went after it this morning, accompanied by several of his assistants. That the broncho will be on exhibition tonight the people can rest assured of and there will be a fine exhibition of man's power over beast. The broncho will be but one attraction out of many and the admission of 10 and 15 cents remains unchanged.

Increase in Way of the

Number of Rigs

As Compared with the Month of April.

Allen County Comes in for Third Place on the List

In Which Wood Takes the Banner Position, with Hancock a Good Second as to Activity.

The record of operations in progress throughout the Buckeye field indicates that June will see unwonted activity in all districts, and the end of the month should show an appreciable increase in wells completed and, if the promising districts pan out as is hoped for, a gain in the new production.

At the end of May there was a total of 455 rigs and drilling wells in the Buckeye field, of which 150 were rigs and 295 drilling. Compared with the report for the month of April, this shows an increase in the number of rigs amounting to 13 and in drilling wells a gain of 65, thus making the total increase 78.

Gains in New Work.
Wood county has the largest total of rigs and drilling wells, that district showing 49 of the former and 31 of the latter, a gain of 26 over the number of wells under way at the close of April. The increase includes 6 in rigs and 29 in drilling wells.

Hancock is Second.
The county next to Wood which shows most activity is Hancock, where there is a total of 101 rigs and drilling wells, 30 new ones and 71 which have been at work. This county does not show a corresponding increase over the figures for April, the total gain being only 8, 5 rigs and 3 drilling wells.

Allen Third in List.
In Allen county there are 73 rigs and drilling wells; 22 of the former and 51 of the latter. The county stands second to Wood in the increase over April, showing a gain of 9 in rigs and 2 in wells drilling, or a total gain of 11. In both reports of completions and new work Allen county is showing gratifying activity and will make the northern counties hustle to keep their place at the head of the class.

Figures for Van Wert.
Van Wert county shows an increase in total new work of only 6, the number of rigs having decreased by 7, while the drilling wells show a gain of 12. The county has a total of 63 wells under way, and by the end of June will probably have enough additional

new ones to keep its place near the top.

Sandusky Quite Active.

There has been an addition of 8 wells under way in Sandusky county during the month of May, the rigs showing an increase of one and wells drilling a gain of 7 over the figures for April. The county now has 31 wells, of which 12 are rigs and 19 drilling.

The Lesser Gains.

In Mercer county there are 21 wells under way, of which 7 were in the list of rigs at the first of the month and 14 were then drilling. This is an increase of 6 in the number of drilling wells, with the rigs at a stand-off with April.

Auglaize county has no rigs and 7 drilling wells, a loss of one in the former and gain of 3 in the latter, which makes the total gain in new work amount to 2.

Wells County Work.

The bulk of new producers in Wells county, Ind., are located in Jackson township and nearly all are first class wells, the only small one being the Griffin Oil Company's No. 2 Colbert, in section 4, which made only 10 barrels. In the same section Thomas McDonald has one of the Clark farm doing 40 barrels. A 60-barrel well has been completed by the Ohio Oil Company on the E. Christman farm, section 7, being the ninth well on this farm; in section 11, the Reserve Oil Company has Nos. 17, and 18, S. Fouse, completed and they made 60 and 80 barrels respectively during the first 24 hours. A test drilling by the Ohio Oil Company on the H. M. Dowson farm section 25, did 50 barrels the first day; the Commonwealth Oil Company's No. 6, Kilander, section 29, was good for 20 barrels, and the Bellertew Oil company doubled this output at their No. 7, Wm. Gilbert, section 39.

Two 10-barrelers and one that did 35 is the record for Nottingham township. The former are the Illinois & Indiana Oil Company's No. 20 Kirkwood, section 15 and Clark, Liken & Henne's No. 7, Lockwood, section 28; the 30-barrel well was drilled by the Ohio Oil company on the Jacob Warner farm, section 22.

A. T. McDonald has completed his tenth well on his own farm in section 34, Chester township, and during the first 24 hours it put 25 barrels of oil into the tank. One of similar dimensions was secured by the Ohio Oil Co. on the J. A. Studebaker farm, section 12; in section 27, the Jewell Oil Company's No. 2, Thomas heirs farm, did 29 barrels, and in section 33, H. Corey, has one that made 29 barrels, his No. 22 on the D. M. & A. T. Spaulding farm.

NEW

Feature for Summer Months

To be Started

Next Tuesday Evening at the Y. M. C. A.

Big Auditorium to be Converted Into a Summer Garden

Where Refreshments Will be Served, Special Programs Rendered and a Ping-Pong Tournament Inaugurated.

A new departure which will appeal to the members of the Y. M. C. A. has been decided upon and the first event of the series will take place next Tuesday evening. The large assembly room on the second floor is to be arranged as near as possible to resemble a summer garden the interior to be decorated with plants, flowers and vines and hung with Chinese lanterns, while scattered about will be small refreshment tables where ice cream and all manner of soft, cooling drinks are served.

The membership committee has the matter in hand and if it proves to be a feature that will attract the public, the garden will be open one evening of each week and a new program of music and other features arranged. The ladies are expected to assist and will do the serving.

Another interesting feature which will prove an attraction is the ping-pong tournament in which there will be a large number of contestants, not a few of whom have become experts at the game which has swept the country and taken its place among the newest fads. Several tables will be in operation and he who proves himself the champion will be presented with a handsome silver cup as a trophy. The tournament will alternate with the other programs, so as to vary the interest, and the outlook for many a pleasant evening during the summer is very flattering.

Secretary Chase reports a healthy growth in the membership of the institution, showing the good effect of the recent banquet. Fifty-eight new members were received last night, and if that number, forty-nine are employees of the C. H. & D. and L. E. & W. rail roads.

WEDDING

Fraught With Choicest of Blessings.

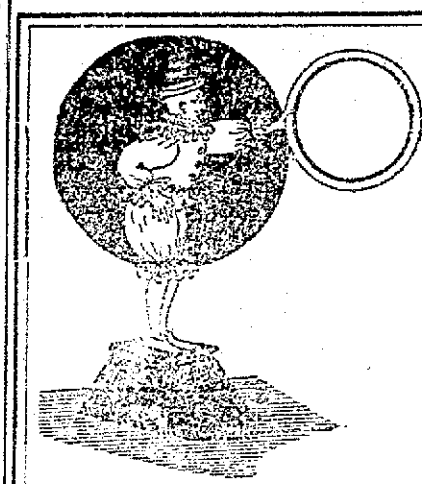

St. Rose Church the Scene of the Nuptials

Which Gave Another of Lima's Fair Daughters Into the Keeping of a Popular and Happy Groom.

A pretty June wedding took place at St. Rose church this morning before a large concourse of people, who were present to witness the plighting of the troth of Edward G. Fisher and Miss Anna Devine.

The bridal party entered the church promptly at 8:30 o'clock to the strains of Lohengrin wedding march, played on the violin by Miss Fernandine Taubken, with organ accompaniment by Miss Loretta Louy. The soloists during the celebration of the nuptial high mass were Caroline Collins, Mae Longmeyer and Johanna Fox. At the offertory Miss Taubken played "The Shepherd Boy" in a charming manner on the violin. Rev. Alfred E. Manning, who was the celebrant of the nuptial mass performed the marriage ceremony according to the sacred ritual of the Catholic church.

The bride, who is a blonde of prepossessing beauty, was clad in a becoming gown of white batiste over tulle, shirred skirt and yoke, with lace bertha. A bridal veil caught with lilies of the valley, completed her costume. The maid of honor, Miss Margaret Devine, a sister of the bride, wore a gown of olive green organdie trimmed in white applique and ruching. A large black hat completed her costume. The groom's best man was Peter Mott, of Detroit. At the conclusion of the nuptial

ECONOMY IN UNDERMUSLIN BUYING.

The underwear that we are selling so remarkably cheap is good underwear—not poorly made, bargain goods. The prices are low because care and skill were constantly exercised when the pieces were bought. Such values, such magnificent assortments did not come knocking at our door. We sought them—went outside the beaten mercantile path to find them, and now we can offer you the best line of undermuslins to be obtained at prices that are attractive to the economically inclined.

Hundreds of women who come with no thought of bargains in their mind are charmed with the beautiful garments in this sale. They select them for their beauty first—but naturally the very moderate prices are most agreeable. Your continued interest in this sale of White is justified by the offerings of unimpeachable muslin underwear it brings you.

Ballots Have Been
Taken

And no Choice

Has Yet Been Made at
Celina.

The Fourth District Demo-
crats are in a Dead-
lock.

Allen County's Candidate Stands
Second in the Race With
Eighty-One Votes on the
Last Ballot.

Celina, O., June 4.—The second
day's session of the Fourth district
congressional convention began at 10
o'clock this morning with the per-
manent chairman, Judge J. E. Linder-
man presiding and with practically all
of the delegates present. It was
known long before the gavel sounded
that there would be little, if any,
change in the situation and no one
was surprised when the 175th ballot
was cast, with the following result:

Allen, Adkins 65; Auglaize, Adkins
11; Garber 21, Loree 18; Darke, Garber
50; Mercer, Loree 45; Shelby, Adkins
1; Garber 25, Loree 5, Good 1. Total
Adkins 78, Garber 115, Loree 57 and
Good 1.

From the time the above ballot was
cast until shortly after 11 o'clock
when the 251st ballot was cast there
was no change whatever in the situa-
tion and nothing occurred to break the
monotony of casting and recasting the
same ballot over and over, again and
again. At the hour mentioned a mo-
tion to adjourn until 1 o'clock was
made and carried. At the time of this
adjournment there is no indication
that any solution of the problem for
the breaking of the deadlock is avail-
able. Overtures have been made to
Allen county's candidate to have him
withdraw and Mr. Adkins is as firm
as he was at the time when the first
ballot was cast and his delegates are
equally firm and loyal. There is some
talk of adjourning the convention to
meet in Lima in the event that the
deadlock is not broken today but there
is no assurance that even that propo-
sition would meet with sufficient sup-
port to be put into effect.

"THE SAME

As Before" Was the Usual Response
and the Usual Result.

At the hour of this writing, 11
o'clock Tuesday night, the convention
has adjourned for the night with its
status no more indicative of a solution
of the lonesome, monotonous dead-lock
and the work of the gathering appar-
ently no nearer an end than it was
when the last nominating speech was
made early Tuesday afternoon. One
hundred and seventy-five ballots have,
up to this time, been cast by the con-
vention and there is but little differ-
ence in the total vote for the three
leading candidates to the Democrat-
ic congressional nomination from what
it was when the first ballots were cast
eight hours previous. During most of
the afternoon and almost all of the
evening sessions the time was de-
voted to roll calling and in almost every
instance the same responses came from
the chairman of the delegations when
the call was made for a vote—"The
same as before." The convention, or
town, hall was crowded and overheated
all day long and the delegates and
spectators alike tired and worn out
when finally, at 10 o'clock came the
motion to adjourn the convention
until 10 o'clock Wednesday morning.

On the second ballot yesterday
afternoon Hon. C. H. Adkins, the
Allen county candidate, received 78
votes, Garber of Darke county, receiv-
ed 59, Loree of Mercer received 71 and
Dr. Good of Shelby, received 5. During
the next twenty-five ballots the only
change was a loss for both Adkins and
Good, Shelby county giving the former
only 2 votes and the latter 5, the
changed votes going to Garber and
making the totals as follows:

Adkins 76, Garber 106, Loree 69,
Good 5.

On the twenty-eighth ballot Auglaize
county secured a recess and returned
to give Adkins 5 additional votes,
which were lost by Loree. Garber
also lost one vote in this ballot, the odd
one vote going to Al Meeker who was
sprung before the convention in this
manner as a dark horse. The vote on
this ballot stood as follows:

Allen, 65 votes for Adkins; Auglaize,
14 for Adkins, 20 for Garber, 13 for
Loree and 1 for Meeker; Darke, 60 for

Garber; Mercer, 45 for Loree; Shelby,
2 for Adkins, 25 for Garber, 5 for Loree
and 5 for Dr. Good. Totals, Adkins 81,
Garber 105, Loree 61, Good 5, Meeker
1.

With no change, other than the oc-
casional of from one to four votes on
the part of Auglaize and Shelby coun-
ties, the monotony of "the same as be-
fore" continued until ten o'clock last
night. Once Shelby county cast its en-
tire quota of 38 votes for Frisette, the
Shelby county member of the congres-
sional district committee, but on the
next ballot, the 74th, Frisette was drop-
ped and after the 76th ballot an ad-
journment of an hour and a half was
taken for supper.

On the 150th ballot Shelby county
reduced Good to 1 vote and gave
Garber 29, Adkins 2 and Loree 6, mak-
ing the totals, Adkins 99; Garber, 116;
Loree, 59 and Good, 1. Auglaize creat-
ed a ripple of excitement on the same
ballot by giving Adkins 23, Garber 17
and Loree 5, but on the next few bal-
lots the juggling continued until the
totals were back in the same old rut
and after the 175th ballot had brought
no change that would be likely to ef-
fect the ultimate result, the conven-
tion adjourned.

Afternoon Session.
The convention was called to order
at one o'clock this afternoon and at
once proceeded with the 282nd ballot.
On this ballot Adkins made a gain of
four votes, gaining five votes from
Loree in Auglaize county, but losing
one to Dr. Good in Shelby county.

The result of the 282nd ballot was
rendered at two o'clock as follows:
Adkins 82; Garber 110; Loree 61;
Good 5.

On this ballot Good gained one from
Loree and one from Adkins, both votes
having come from the Shelby county
delegation.

No Break in Sight.

The balloting continues without any
material change in the situation. At
three o'clock the 351st ballot was
taken which resulted as follows: Ad-
kins 81; Garber 111; Loree 62; Good
1. On this ballot Adkins did not get
any support from Shelby county.

After the reading of the result of the
351st ballot the convention took a re-
cess of 30 minutes.

SLIPPED

While Attempting to
Board a Freight

And the Wheels of the Train
Ran Over Him.

Frank Sowers Met With a Serious
Accident at Findlay and His
Left Foot Had to be
Amputated.

Frank Sowers, of this city was the
victim in a distressing accident which
occurred at Sidney at 12:40 o'clock
last night, and as a result of his at-
tempt to board a moving C. H. & D.
freight train he suffered injuries
which will render him a cripple for
life.

Sowers lives with his wife and a
little step daughter in the Brotherton
block, but at the time of the accident
he was about to return to Lima from
Sidney, where he and his wife had
been visiting. Having been out of
work for a time he was not plentifully
supplied with money, and after buying
a ticket for his wife he concluded to
get home by boarding a C. H. & D.
freight. When No. 34 passed through
Sidney he made an attempt to catch it,
but slipped and fell under the wheels.

When his plight was discovered he
was given prompt medical attendance
and the physicians found it necessary
to amputate the left foot a few inches
above the ankle. He received other
injuries but they are not believed to
be of a nature that will prove fatal.

He recovered from the shock and
improved sufficiently to permit of being
brought home today. Eckert's am-
bulance met the north bound pas-
senger train this afternoon at 4:30.

Sowers, who is 32 years of age has
been employed at various jobs in
Lima, cooking at restaurants, tending
bar, working as a telephone lineman,
and during the early part of the sea-
son hanging awnings.
